A SPECIFIC —FOR— La Grippe, for Colds, Coughs, AND LUNG TROUBLES, AYER'S CHERRY PECTORAL.

"Two years ago, I had the grippe, and it left me with a cough which gave me no rest night or day. My family physician prescribed for me, during the medicine as often as he found the things I had taken were not helping

me, but, in spite of my attendance, I got no better. Finally, my husband, reading one day of a gentleman who had had the grippe and was cured by taking Ayer's Cherry Pectoral, procured for me a bottle of this medicine, and before I had taken half of it, I was cured. I have used the Pectoral for my children and in my family, whenever we have needed it, for colds, coughs, and lung troubles."

A Railroad Official's Experience.

MR. EDWARD EDMONDS, long conductor of the Santa Fe railroad, and paid me for 15 years. Shortness of breath was the constant and most common symptom. Intense, excruciating pain, generally followed any severe exertion. Faintness, hunger without any appetite, fainting, made me clutch my breast, and palpitation that often staggered me as if I would fall, were frequent attacks. Again, everything would turn black if I arose from a stooping posture quickly. Eruptions, night sweats, prostrating, nervousness were numerous and I could get no rest day or night. I consulted leading physicians and tried advertised remedies. They gave me nothing. One of Dr. Miles' circulars described my case so exactly that I took Dr. Miles' New Heart Cure and I am now a well man. I hope everyone troubled with heart disease will try Dr. Miles' remedies. If they will write me personally, I will gladly give them full details of my experience." EDW. EDMONDS.

THE LOCALITY.

Las Vegas, the Chief City of New Mexico—Some of Her Resources, Attractions and Advantages.

Las Vegas, meaning "The Meadows," is the county seat of San Miguel county, lies on both sides of the Gallinas river, and with its suburbs, has about 10,000 inhabitants.

It has water works, street cars, arc and incandescent electric light plant, telephone exchanges, Territorial agricultural experiment station, headquarters of the Atchison railway system, New Mexico division, together with railroad machine shops and tie-preserving works, stock yards, and the largest sheep shearing and dipping plant in the United States.

West of the river, the old town has the quaint and picturesque Mexican appearance—adobe houses, narrow, crooked streets, native people and customs, handicrafts and occupations; but the plaza and all of the new town, east of the river, constitute a distinctive American city. The streets are wide and well graded, while sidewalks abound, shaded with growing trees, add to the beauty and healthfulness of the place. Handsome and well-filled houses, beautiful residences, and innumerable lawns, set in grass and adorned with shrubbery and flowers, combine to proclaim a cultured community, possessed of all modern comforts and conveniences.

A city hall, three public school buildings, court-house, Masonic temple, opera house, Territorial Normal school and Territorial insane asylum are public buildings, constructed of red and white cut sandstone, unsurpassed in beauty by similar edifices in any town of equal size in the States. An Academy, Seminary, Jesuit college, Convent school, Presbyterian Mission school, Methodist manual training school, Christian Brothers' institute, City high school, three graded public schools, a kindergarten, a commercial school and two music schools, besides several private teachers, are among the educational advantages and facilities.

Las Vegas is the natural sanatorium of the United States, combining more natural advantages than any other place in America. Her thermal waters are the equal of the Hot Springs of Arkansas, while her climate is infinitely superior. There is no malaria, no excessive heat or cold, no gnats, rats or mosquitoes. The air is pure, dry, rarified, and highly electric, and is free from contamination. If the disease be taken in time, the hot waters are a specific for liver, skin, rheumatic and blood disorders. Her mountain hotel is the finest hotel in the West (Chicago and California), and is situated in a beautiful canyon, five miles from town, where the Hot Springs, in number, come boiling to the surface.

The latitude is about the same as that of central Tennessee, while the altitude is about equal to that of the State of Colorado. This combination gives a peculiar, but most happy, result. In the winter, during the day, the thermometer seldom falls below the forty degrees, while in the summer, in the sunshine, it rises to sixty degrees or even more. On the other hand, in the summer, the night is cool, and the sun will shine nine days out of every ten, the year round. This, with the extreme dryness of the air, caused by the very slight precipitation of moisture, the reason why the rolling down from the pine-clad mountains: the large amount of electricity in the air, and the consequent ozone, resulting from the lightning, and the location of the town, land-locked by mountain and mesa—these all combine to produce an atmosphere of health and vitality, and a relief from the heat and humidity of the South. The percentage of death from consumption is lower in New Mexico than it is anywhere else in the United States. The climate of Las Vegas is the only one in the salubrious of its climate. Asthmatics experience a permanent and permanent relief in this altitude.

In the way of health and pleasure resorts, Las Vegas is unrivaled. In a radius of twenty miles, the mountains, hills, and best of all, the hot springs, are the Las Vegas Hot Springs, Harvey's El Porvenir, Sandoval's Mineral Hill, Romero Ranch, Black's, Sandoval's, Sandoval's, and other places, too numerous to mention, where health can be recovered, and the body made strong and vigorous. The invalid, the over-worked business man, Las Vegas has two daily and five weekly papers, three banks, two telegraph and loan associations, three hotels, many boarding houses, nine churches, a number of clubs, and all the leading civic and social organizations, a roller skating rink, daily races per day; two wool-scouring establishments, cleaning 1,500,000 pounds of wool annually; a well-equipped brewery and distillery; a manufacturing plant of mineral and carbonated waters; two wagon and carriage factories; a saddle and harness shop; a factory; electric light plant; three planing mills, and other enterprises of less importance.

There are eight large wholesale houses, whose trade extends throughout the Territory, and into the adjoining sections; while the volume of this trade, and the value of the stock which they carry, can not be duplicated west of Kansas City and Denver. Three merchants' brokers have selected the city as their distributive center, the amount of their yearly sales exceeding, in the aggregate, the combined sales of all other stock brokers in New Mexico. The retail merchants of Las Vegas are numerous, and carry larger and better stocks of goods than do the retail merchants of any other town in this Territory or Arizona.

Las Vegas is the distributing point for nearly all New Mexico. By the Atchison system, she has connection with Kansas on the east, Colorado on the north, Arizona on the south, and California, Texas and Old Mexico on the south. Besides these, she has more stage lines, connecting her with tributary territory, than has any other town in New Mexico. This territory includes the entire section east and south of the mountains, and comprises the counties of Mora, Taos, San Miguel, Santa Fe, Socorro, Dona Ana, Grant, Chaves, Lincoln and Eddy, with parts of Valencia and Bernalillo—country larger than all New England. This takes in the famous Valley of the Rio Grande, and the famous, but not less excellent, Valley of the Pecos—the finest fruit sections of the west.

This Territory is rich in everything that constitutes the wealth of nations. Iron, copper, lead, silver, gold, mica, limestone, sandstone, marble, gypsum, coal, and other minerals, and innumerable quantities, are among the several products of the Territory. The Las Vegas country is rich in sheep, cattle and lumber, and so that in each of these prime articles of commerce this city is the best market in New Mexico. She handles more wool than all the other towns in the Territory combined, while her commerce in hides is truly enormous. In the same way, she stands pre-eminent for her trade in grains, hay, vegetables, and other farm products; while her trade in ice, gathered in the neighboring mountain canyons, extends east into Kansas, west into Arizona, and south into Old Mexico.

Hall's Vegetable Scallion Hair Renewer is, unquestionably, the best preservative of the hair. It is also curative of dandruff, tetter, and all scalp diseases.

PURELY VEGETABLE.

The Cheapest, Purest and Best Family Medicine in the World. An Effective Specific for all diseases of the Liver, Stomach and Spleen. Regulate the Liver and prevent Chills and Fever. Malaria, Biliousness, Constipation, Rheumatism, Jaundice and Nausea.

BAD BREATH!

Nothing is so unpleasant, nothing so common, as bad breath; and in nearly every case it comes from the stomach, and can be so easily corrected if you will take Simmons' Liver Regulator. Do not neglect so sure a remedy for this repulsive disorder. It will also improve your appetite, complexion and general health.

FILES!

How many suffer torture day after day, making life a burden and robbing existence of all pleasure, owing to the secret suffering from Files. Yet relief is ready to the hand of almost any one who will use systematically the remedy that has permanently cured thousands. Simmons' Liver Regulator is no drastic, violent purge, but a gentle assistant to nature.

CONSTIPATION.

SHOULD not be regarded as a trifling ailment—in fact, nature demands the utmost regularity of the bowels, and any deviation from this demand paves the way often to serious danger. It is quite as necessary to remove impure accumulations from the bowels as it is to eat and sleep, and no health can be expected where a constipated habit of body prevails.

SICK HEADACHE!

This distressing affliction occurs most frequently, the disturbance of the stomach, arising from imperfectly digested contents, causes a severe pain in the head, accompanied with disagreeable nausea, and this condition what is commonly known as Sick Headache, for the relief of which TAKE SIMMONS' LIVER REGULATOR or MILDLY.
